The Honorable William E. Brock
The Secretary of Labor
U.S. Department of Labor
Washington, D.C. 20210

Dear Mr. Secretary:

Your letter of 14 August 1987 to the Director of the Central Intelligence Agency concerning attendance at the Forty-second Annual Federal Safety and Health Conference has been referred to me for response.

Representatives of the Central Intelligence Agency have attended Conferences, as well as the National Safety Congress and Expositions, in the past and found them very beneficial. We plan to continue this representation and have scheduled one employee from the Safety Division, Office of Medical Services, and one from the Printing and Photography Division, Office of Logistics, to attend the next conference.

Please be assured of our continued support of the Federal Safety Council and the annual conferences.

Sincerely,

Gary E. Foster
Director of Medical Services

The Honorable William H. Webster
Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. Webster:

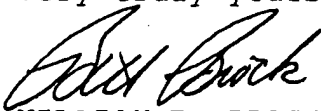

I am pleased to announce that the Forty-second Annual Federal Safety and Health Conference will be held, in conjunction with the National Safety Congress and Exposition, in Chicago, Illinois, on October 5-7. A copy of the preliminary program is enclosed for your information.

The Conference provides an excellent forum to present and exchange information on Federal workers' occupational safety and health programs. It also provides an opportunity to share new program initiatives developed by the Occupational Safety and Health Administration to meet the goals established by President Reagan.

I would appreciate your authorizing your top and mid-level managers, representatives of employee organizations, and other members of your staff who are directly responsible for implementing your Agency's safety and health program at headquarters and field installation levels to attend this year's Conference.

If you have any questions regarding the Conference, please have a member of your staff contact Mr. John E. Plummer, Director, Office of Federal Agency Programs, at 523-9329.

Very truly yours,

WILLIAM E. BROCK
